Add Value to your Tea with SSP's instant tea plant

Instant tea can be produced from black, green or oolong teas which originates from the same plant *camellia sinensis*. The difference between various instant tea, is based on various methods used to produce instant teas from above varieties.

Instant tea can also be produced from the waste/leftovers generated in CTC/Orthodox leaf tea, hence are very economical for its process.

Unique Feature's of SSP's Instant Tea Plant

- Unique continuous extraction system producing higher yields.
- Efficient removal of Tannin (cream) for better taste.
- Fully automated PLC based plant with CIP system.
- Energy efficient, evaporation & spray drying system.
- Flexibility in obtaining different quality of instant tea.
